

MONGSTAD

Client: **Statoil**

Location: North Sea, Norway

Construction Site: Cadiz Yard - Spain

Completion Date: August 1987

Contract Type: BOQ

Total Weight: 210 PAUs 16,000 tons

Project Description: The oil refinery Mongstad Rafinor opened in 1975. Ten years later a major expansion was planned to increase annual capacity from 4.5 million barrels to approximately 6 million barrels. The refinery belongs to Mongstad Refining, which is owned 79% by Statoil and 21% by Shell.

Scope of Work: Our SOW included the construction engineering, partial procurement (bulk materials), fabrication, pre-commissioning and commissioning assistance of the 210 refinery modules. At a later stage we also participated in the supply of the refinery shut down modules.
